

ANALYSIS OF PROPOSITION G

By Robert E. Shannon, City Attorney

Voter approval of Proposition G would delete Sections 903, 1500, 1700, 1707, 1714, 1717 and 1724 from the Long Beach City Charter.

Presently, the Long Beach City Charter contains provisions establishing taxes for public recreation, libraries, transportation and the Municipal Band. The proposed amendment would eliminate these tax provisions.

Presently, the Long Beach City Charter requires the establishment of a Department of Public Utilities. The proposed amendment would eliminate this requirement.

Presently, the Long Beach City Charter designates the City's fiscal year, and requires the establishment of a general purpose reserve account and limits the amount of funds which may be placed in that account. The proposed amendment would eliminate this requirement.
